70th Anniversary

As you know we are hosting our 70th Anniversary Celebration Dinner and Concert on Friday, March 31 at Brick Lane Community Church. We would love to have every CCS family as well as many CCS alumni as we can. **Will you help us reach the alumni you know? Alumni can send in alumni updates for the evening slideshow by using [this FORM](#).**

In addition to dinner and the concert, we will be hearing from people who have spent many years praying for and serving at CCS. Come and hear Wayne Gascho, Vernon Beiler, Calvin Kurtz, and Frank Nefos share how God has used CCS during their time at our school.

Interested at sean.ellis@conestogachristian.net. Volunteers are appreciated, but financial compensation is available upon inquiry. **Please share this with musicians you know!**

Chick-fil-A

Here is a friendly reminder that our fourth graders would love to have you order Chick-fil-A to help them take a trip to Philadelphia. Orders are due next Thursday, March 16 for lunch on March 24. Support our 4th graders!

April Open House

Many of you share your experience at CCS with other families whose children aren't enrolled here. If you know someone that is interested and would like more information about CCS invite them to our **Evening Open House on Thursday, April 13 from 6-8 PM**. You are welcome to attend with them. Let us know you are coming by emailing our Admissions Director at michelle.parris@conestogachristian.net.

Race for Education

Please remember to update the Race For Education sponsors for your students by March 15th. You can return the blue sheet with the changes written out or submit the changes online at <https://tinyurl.com/My23RFEsponsors>. If you cannot find your blue sheet, email heather.schreiber@conestogachristian.net to receive a list via email. If you do not submit any changes the school will use the sponsors as listed from last year. This is a tremendous fundraiser for the school and helps to keep tuition as low as possible. Therefore, the goal is for every student to have 10 sponsors.

Let there be LIGHT!

The high school physics class experimented with electrical circuits in a "Let there be Light" lab this week! Students were tasked with following directions to create a circuit using a battery, resistors, wires, and colored LED lights to result in the lighting of the bulbs.
